

International Workshop in Toscana, Italy

Angela Disse, Edmundo Barbosa, Emily Derr

3. July – 17. July 2021

expressive use of the body

»Love, Work and Knowledge are the wellsprings of our life,
they should also govern it in this order«

Wilhelm Reich

Join us for two weeks in the beautiful nature of northern Italy where we will live in community. Please go to the website: www.il-convento.net to view the photos.

The sunny green landscape helps lead us to follow our body's natural rhythms. As our body is the living, moving sculpture, we look for the movement of sensations that makes our lives very rich with pleasure. We do this with mat sessions, with attention to our breath, with dance, with voice, with observations in nature and with concentrated exercises to stimulate our senses that take us deeper into our sensations.

ANGELA: »Trust in the changes. Embrace them with curiosity. Do not hold onto what is not working. See the opportunity for new beginnings.«

EDMUNDO: »Every living organism carries within itself a natural flow that always seeks better harmony and balance for itself. That is the essence that I believe this work is all about - a natural, harmonious movement towards health in it's broader sense.«

EMILY: »This workshop brings a great opportunity for one to see and experience three different people doing Wilhelm Reich's work through May sessions. It also supports and encourages your own individuality.«
